IFP Training

IFP Training is a subsidiary of the French Petroleum Institute (IFP Energies nouvelles) and since 1975 it has been providing skill development & training for all the professionals in the oil, gas, petrochemical, chemical and automotive industries, from top managers to site operators. With 90 full-time instructors and a network of 600 consultants, IFP Training offers training courses for professionals, from a few-day short courses to several-month integrated courses. IFP Training delivers over 1,400 courses a year for about 16,000 participants from some 80 countries.

IFP Energies nouvelles

IFP Energies nouvelles is a world-class public-sector research and training center, aimed at developing the technologies and materials of the future in fields of energy transport and the environment. IFP School trains some 500 graduate students a year in all fields of the Oil and Gas industry including energy management.

Petrostrategies

PETROSTRATEGIES S.A., founded in 1985, is a consulting and publishing company based in Paris, France. Our weekly PETROSTRATEGIES newsletter has been published in English and French since 1986. It provides its readers with in-depth analysis on oil and gas matters. The group also publishes EUROP'ENERGIES, which is a European information and analysis service that caters for electricity and natural gas buyers. PETROSTRATEGIES is the co-organiser (together with IFP Energies nouvelles and IFP Training) of the International Oil Summit and of the International Gas and Electricity Summit. We also provide consulting services to governments and companies. The company is headed by Dr. Pierre Terzian, author of several books on energy matters.
